Thoughtful modern design for family living is offered in the 1400 plan. The kitchen features an eating bar adjoining the family-room, a pass-through counter to the patio and a separate utility room for laundry and storage. A large master bedroom has been planned for luxury and privacy with a dressing room, walk-in closet and private bath. The spacious living-room has an optional corner fireplace.

Totally modern electric heating, air conditioning and appliances by General Electric.
