first floor

Spaciousness and warmth are the outstanding characteristics of the 1776. Beginning with a separate tiled entry, with powder room and closet, a large comfortable living room opens and extends into the dining room and kitchen with its wall expanse of glass, looking into an enclosed garden patio. Upstairs, warmth and space are further created by the high-beamed ceilings in the master bedroom, guest bath and stairwell.

Totally modern electric heating, air conditioning and appliances by General Electric.
