

3000

SECOND FLOOR PLAN

If you like to live, entertain and decorate with a flair, the dramatically designed 3000 should be your home. Plush carpet stretches over the long living and dining area, separated by a brick fireplace. The beam ceiling spans the living area to a large balcony bedroom. The upper floor has a second bedroom, two full baths and a laundry area. Downstairs, the den and kitchen look out on your private garden and patio. ✓

Totally modern electric heating, air conditioning and appliances by General  Electric.
